LCS Experience Is Everything®

LCS Group Purchasing

Vendor Fee Disclosure

LCS Group Purchasing collects administrative fees from vendors based on member purchases ("GPO fees"), typically 3% or less. However, some GPO fees may exceed 3% under certain conditions:

- Volume thresholds met
- Specific product purchases
- Number of member organizations participating

It's important to note that:

- Not all purchases from listed vendors result in fees exceeding 3%
- Some purchases may involve multiple vendors (e.g. distributor and manufacturer)
- Fees equal to or less than 3% are not included in the provided list

Group Purchasing Organizations are required to disclose administrative fees to customers annually and to the Secretary of HHS upon request. The safe harbors regulation typically limits fees to 3% or less of the purchase price, with any fees above 3% needing to be reported.

For questions around how we protect our members and vendors:
