

BROADCAST YOUR OWN CONTENT

with your DIRECTV system

Now more than ever it's important to engage with your residents to help them reduce stress and provide more entertainment and information while promoting social distancing.

BROADCAST FEATURES

COMMUNITY CHANNEL

- Broadcast Announcements
- New Resident Profiles
- Activities & Schedules
- Easily modified to update in real time

HOW DOES IT WORK?

Through your existing DIRECTV System we can add capabilities that enable you to broadcast your own content on a dedicated channel or channels that feed to every room in the community!

WHAT IF I DON'T HAVE DIRECTV?

We will give you an estimate to upgrade your service to DIRECTV and provide you with your custom channels.
