- Scratch Resistant & Stain Proof

 **EASY CLEANABILITY**
FOR MESSSES AND EVERYDAY
MISHAPS

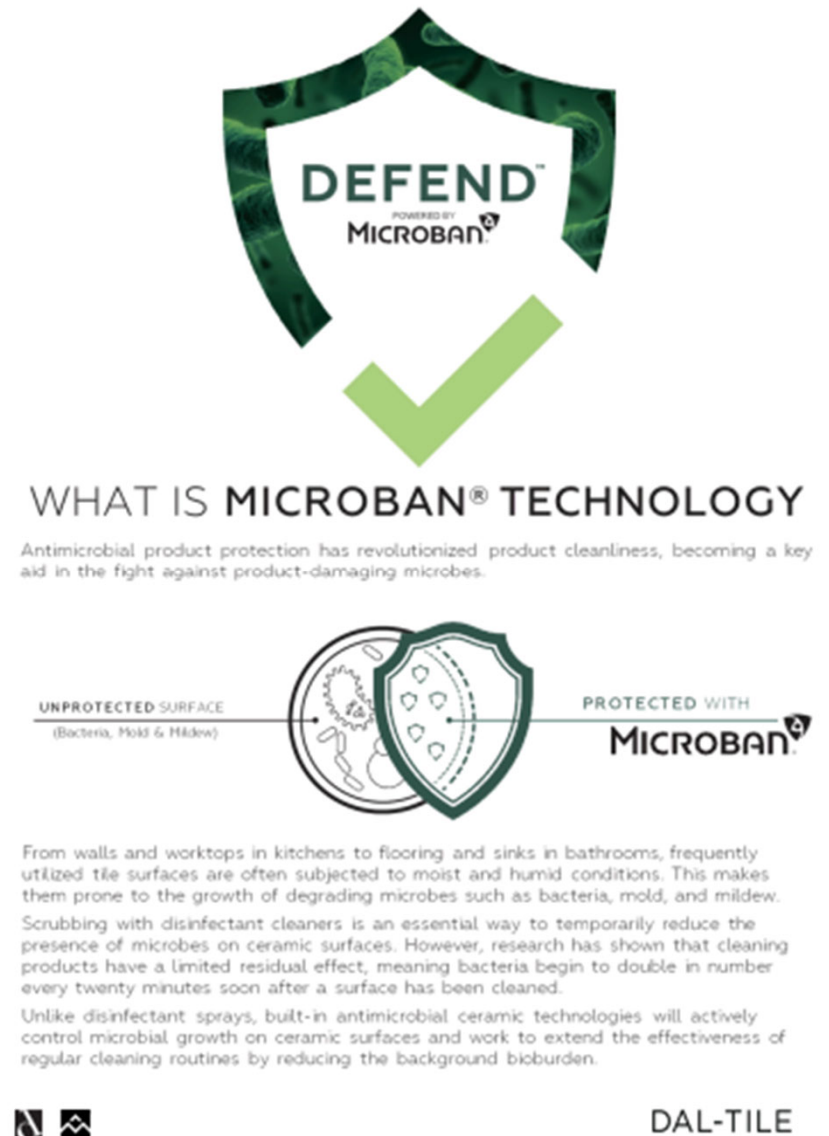

- Easy to Clean Unlike Competitor Products with Surface Enhancements
- Less Stress and Worry!

 **INDOOR OR OUTDOOR**
ENJOY ALL YOUR SPACES

- Superior Slip Resistance For Interior/Exterior Applications

DAL-TILE

DEFEND™
POWERED BY
MICROBAN®

WHAT IS MICROBAN® TECHNOLOGY

Antimicrobial product protection has revolutionized product cleanliness, becoming a key aid in the fight against product-damaging microbes.

UNPROTECTED SURFACE
(Bacteria, Mold & Mildew)

PROTECTED WITH MICROBAN®

From walls and worktops in kitchens to flooring and sinks in bathrooms, frequently utilized tile surfaces are often subjected to moist and humid conditions. This makes them prone to the growth of degrading microbes such as bacteria, mold, and mildew. Scrubbing with disinfectant cleaners is an essential way to temporarily reduce the presence of microbes on ceramic surfaces. However, research has shown that cleaning products have a limited residual effect, meaning bacteria begin to double in number every twenty minutes soon after a surface has been cleaned.

Unlike disinfectant sprays, built-in antimicrobial ceramic technologies will actively control microbial growth on ceramic surfaces and work to extend the effectiveness of regular cleaning routines by reducing the background bioburden.

NEED SUSTAINABLE SOLUTIONS?

Mindful Materials

Daltile is a partner of Mindful Materials

Recycled Content

98% of Daltile's products contain recycled content

EPD's & HPD's

Daltile's North American manufactured products have EPD's & HPD's

Zero VOC's

Daltile's products are free of VOC's, PVC, and Formaldehyde

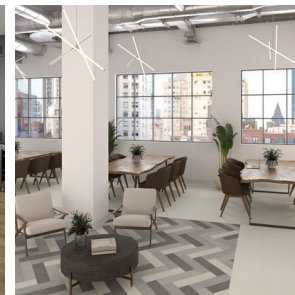

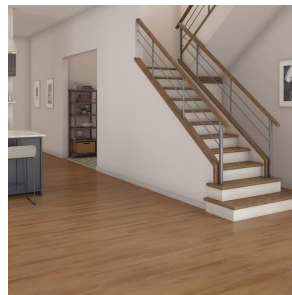

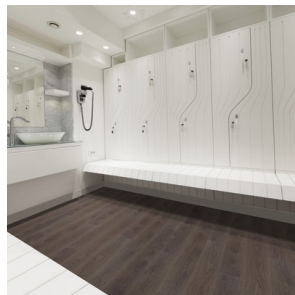

PRO SERIES LVT | GLUE DOWN

SuperGuard™ Technology

Our ProSeries collection of luxury vinyl flooring includes an innovative technology called SuperGuard in select series. SuperGuard is a reinforced, commercially graded shield added to the top wear layer of the tile to increase durability and ensure performance under everyday foot traffic.

SuperGuard is a great addition for areas such as foyers or office spaces.

For areas with heavier than usual foot traffic, some of our ProSeries collection includes SuperGuardX, an ultra-reinforced top wear layer, boosting durability and optimizing performance under substantial foot traffic with 3x the resistance to stains, scratches, and scuffs.

SLABS CUT TO SIZE

WHAT IS IT?

FULL SERVICE PROGRAM

Daltile's Cut to Size program is a full-service program offered by Daltile. This program is meant for clients who have a high volume need for custom quartz/natural stone. Utilizing this program allows customers to take advantage of an internal team of Special Project Managers & Daltile's Global Strategic Partnerships to realize a cost savings on their projects.

Features & benefits:

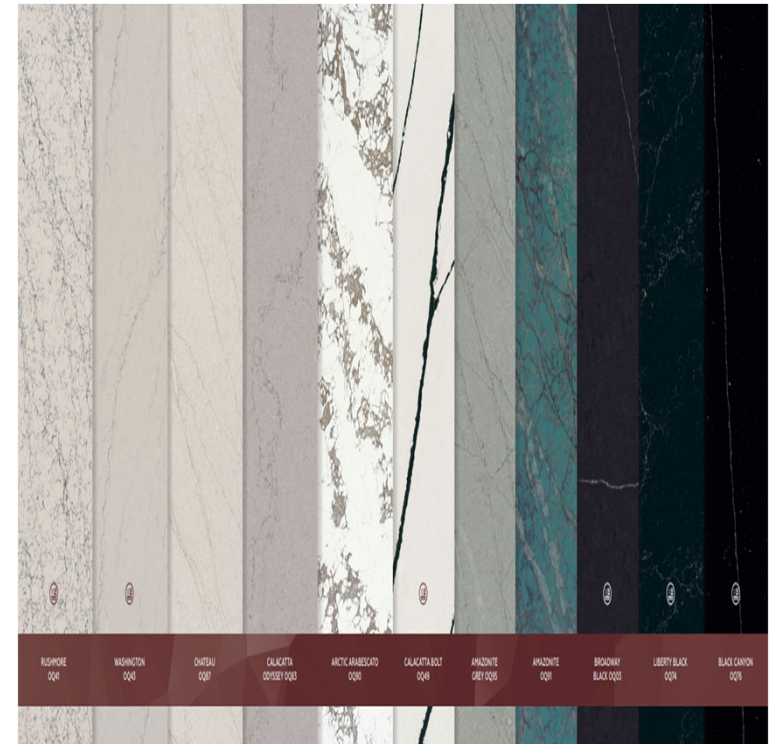

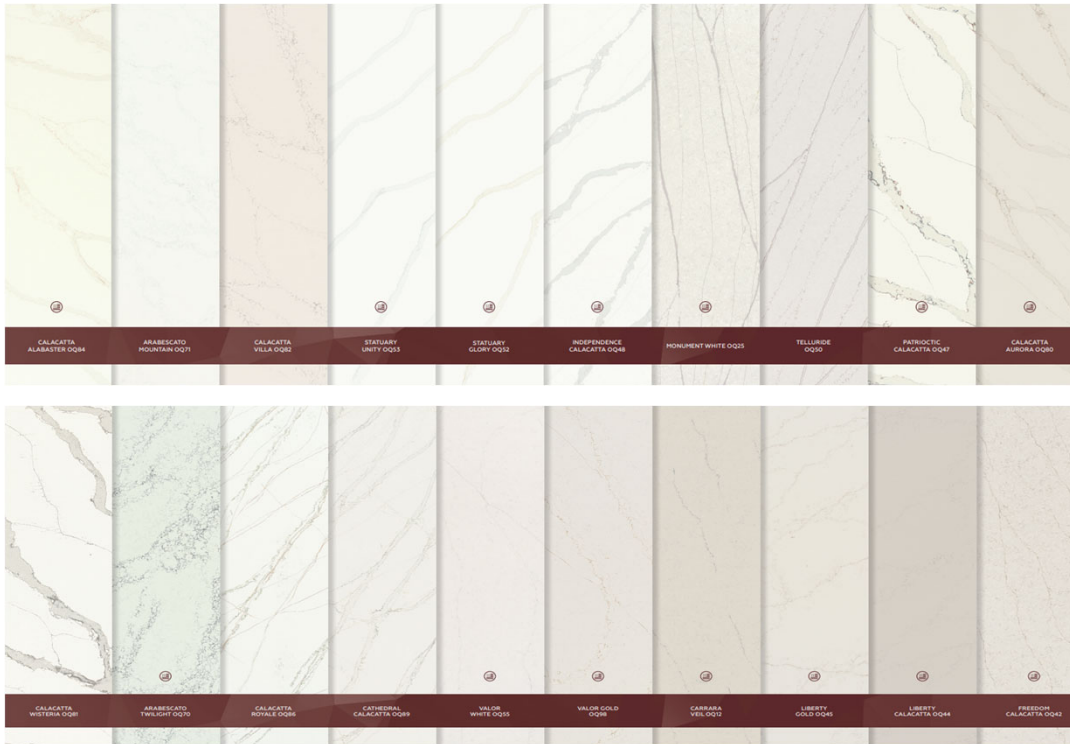

- Full service from Daltile - management team in place to facilitate order
- Drafting and takeoff abilities in USA & abroad
- National Distribution
- Global Partnerships with Stone Factories & Quarries
- Superior Quartz Product from Daltile including US Made materials
- Competitive, transparent turnkey pricing - working directly with the manufacturer, no middle man
- Availability
 - Storage & sequenced delivery
 - Option of Made in USA for quick projects
- Warranty on a per project basis

PANORAMIC PORCELAIN

THICKNESS AND SIZES

WHY PORCELAIN SLABS?

Elevate your design with Panoramic Porcelain Surfaces and discover the possibilities. Transform your space with the elegance and resilience of porcelain.

Our expansive collection offers the perfect solution for those seeking elegance and strength in their design. Available in various finishes and styles, our porcelain slabs redefine spaces with a touch of sophistication. Explore the distinct series: Elemental, Industrial, and Metallic, each crafted to suit your aesthetic needs.

- Classic marble, natural stone, metallic, cement, patterned & monochromatic designs.
- Seamless design, application versatility and customizable sizes.
- Offers the scale & style of a natural stone slab with the benefits of porcelain - virtually maintenance free!
- Lower installation cost, easier installation & less expensive than natural stone slab products.
