PACKAGED TERMINAL AIR CONDITIONERS (PTACs)

Beyond the assurance that comes with the quality construction and warranty of Durastar products, our PTACs also offer wide-ranging compatibility—with third-party thermostats, with remote controls and with existing infrastructure. Designed to fit a standard wall sleeve, Durastar PTACs simplify and streamline the upgrade to affordable, energy-efficient heating and cooling.

PACKAGED TERMINAL AIR CONDITIONERS (PTACS)

Durastar PTACs are durably constructed to hold up to commercial use. Using an industry standard footprint, Durastar PTACs can easily slide into many existing wall sleeves, allowing for low upfront installation costs.

Durastar PTACs are made to last, and we stand behind them with a 5-year limited warranty.

FEATURES

- Fits standard wall sleeve
- LCDI power cord included
- Automatic room freeze protection at 32°F in an unoccupied room
- Washable filters
- Ductless installation
- 5-year limited warranty

BENEFITS

- Durable construction
- Slide-in/slide-out installation
- Low upfront install cost
- Easy operation

DURASTAR COOLING SERIES

Model #	Voltage	Cooling Capacity (BTU)	Electric Heating Capacity (BTU)	Electric Heat (kW)	Width (in)	Depth (in)	Height (in)	EER	Refrigerant
