Hygiene Ready Essentials for Safe, Efficient and Comfortable Communities

GP PRO and Dixie® Brand Solutions for Healthcare

POST-ACUTE CARE

Georgia-Pacific

Achieving Higher Levels of Safety

Reducing Cross Contamination and HAIs

Ensuring Supply Chain Preparedness

Building Patient Confidence

Keeping Your Residents Safe and Comfortable and Your Employees Compliant and Productive

Today's post-acute communities are renewing commitments to hygiene and efficiency, and strengthening their business long term. And they're trusting GP PRO solutions to help keep them ahead of trends.

Key improvements can help protect your communities and preserve the comforts of home ...

Heightened Hand Hygiene and Compliance

Especially now, a fresh commitment to hand hygiene can help protect residents and employees. A critical step is increasing access to soaps, sanitizers and paper towels—in touchless dispensers.

Moving to Touchless Technology

Automated, closed-system dispensers are engineered for hygiene, efficiency and aesthetics—enhancing your resident suites, restrooms, medical staff areas, and dining rooms.

Rethinking Your Public Restrooms

Upgrading restrooms with touchless automation and high-capacity dispensers can help elevate hygiene, improve the experience, and minimize service interactions.

Sustainable Selections and Waste Reduction

More communities are insisting on sustainable products. And when coupled with controlled, one-at-a-time dispensing, they can also help reduce waste.

Disposables for Dining Areas (and In-Room Dining)

It's no wonder communities are adopting Dixie® disposable cups, plates, napkins and cutlery as convenient, hygienic alternatives to permanent-ware dishes and silverware.
