

Solar Power Purchase Agreements

Securing the Best Solar Solution for Your Organization.

Titan Energy makes it easier for organizations to access renewable energy and achieve energy savings at their buildings.

RENEWABLE ENERGY EXPERTISE, AT YOUR FINGERTIPS

Renewables should be accessible to all

Creating a renewable energy plan for your business can be a daunting task. We work on your behalf to ensure the finished product is crafted to provide reliable, clean energy to your facility, reduce your operating costs and accomplish long term sustainability goals.

Discover your best financing solution

For some, the right decision may be to make the investment and operate the system independently. For others, third-party ownership may be the more attractive option. Our team of dedicated finance professionals will help you understand your options and set the right course.

Track your progress, count your savings

When the project is complete and energy begins to flow, Titan Energy stands by the customer with the tools and experience needed for environmental compliance requirements and internal review of your investment's performance.

GET THE MOST OUT OF TECHNOLOGY WITHOUT USING MORE RESOURCES

- ▲ Titan Energy is your adjunct energy procurement team.
- ▲ Eliminate the uncertainty of deciding between solar offers.
- ▲ Identify and eliminate development risks.
- ▲ Lock in long term savings and lock out market volatility.
- ▲ Accelerate your transition to a carbon neutrality.
