Procurement PARTNERS

OnCare

Unify purchasing, budget tracking, and approvals in one powerful cloud-based software platform built for healthcare.

Procurement and budget management software designed for post-acute healthcare

OnCare is healthcare-focused Procurement software that streamlines purchasing, controls costs, and ensures compliance. With real-time budget tracking, advanced approvals, and deep supplier integrations, it simplifies everything from order creation to invoice reconciliation. OnCare reduces manual work, provides full order traceability, and empowers teams to make fast, informed decisions, freeing up time to focus on patient care.

Key Features

Custom Order Guides

Create a customized list of approved products and pricing within your Procurement system, tailored to your organization's needs and managed directly by your team.

Punchout Ordering Capabilities

Seamlessly connect to supplier websites and add items directly to your Procurement cart while viewing real-time pricing, product availability, and formulary compliance defined by the GPO.

Real-Time Budget Tracking

Monitor spending as it happens by tracking purchases against allocated budgets in real time, helping you stay in control of your financial goals.

Extensive Vendor Integrations

Access a wide range of supplier categories including food, medical, housekeeping, maintenance, office supplies, activities, and therapy, all from one centralized platform.

Advanced Approval Workflows

Design custom approval processes for orders and invoices that match your internal controls and help enforce purchasing policies across departments.

Manual Invoice Automation

Use our SimpleAP feature to streamline invoice digitization, allowing vendors to email PDF invoices directly to Procurement software.

Real-Time Auditing

Gain full traceability by auditing every invoice back to its original purchase order and contracted pricing to ensure compliance and accuracy.

Powerful Analytics and Reporting

Leverage a rich library of built-in reports and dashboards that offer insights into order volumes, invoice statuses, and more to support data-driven decisions.

Proven Results for Healthcare Providers

75% reduction in invoice approval time

40% decrease in manual processes

95% contract compliance achieved

Why Users Love OnCare:

- **One System, All Your Vendors**

  Obtain a true all-in-one procurement hub, giving users the ability to purchase across departments, supply categories, and facilities without ever leaving the OnCare platform.

- **Real-time Budget Visibility**

  Stay on top of spending with real-time budget tracking and automated alerts to make informed, compliant purchasing decisions.

- **Faster, Error-Free Invoice Processing**

  Automate invoice approvals and ensure contract compliance with full invoice traceability, cutting manual tasks and accelerating payment cycles.

Why Customers Love Procurement Partners

- **Expansive Supplier Network**

  Gain access to over 9,000 suppliers offering medical, food, office, maintenance, housekeeping essentials, and more, all in one platform.

- **Dedicated Training & Support**

  From implementation to optimization, we deliver hands-on healthcare-specific onboarding, training, and support to ensure customer success at every stage

- **Proven Healthcare Expertise**

  Procurement Partners brings deep healthcare experience across non-acute, acute, and post-acute care, enabling us to solve operational, compliance, and budgetary challenges

Client Testimonial

"Previously, each facility might have worked with 15 different vendors, each with its own ordering process and separate website or portal. Now, everything is centralized in one place, eliminating the need to toggle between multiple browsers. This has given our teams valuable time back."

- Erin Rempala, NeuroPsychiatric Hospitals, Corporate Project Manager

Smarter Purchasing Starts Here

Let us show you how OnCare helps post-acute healthcare organizations streamline purchasing, reduce costs, and stay compliant by visiting the webpage below or contacting us directly via email.
