Focus on patient care, not procurement

Procurement Partners is healthcare's leading solution for simplifying and streamlining the procure-to-pay process

At Procurement Partners, our business is procurement. Our comprehensive solutions support the entire procurement process, from purchasing to inventory management to invoicing and payments, all in one place. Time and money savinigs get you back to the heart of your business— patient and resident care.

There when you need it most.

Incorporating technology into the day to day can seem daunting. More than just technology, Procurement Partners brings decades of proven expertise in procurement strategy, design and implementation to guide and support your organization end to end.

We custom-configure solutions to your organization's unique needs, with business rules and formulary management to support ongoing cost savings and efficient daily operations. Our goal is to ensure you get the right supplies, at the right price, with vendors paid on time too.

As the industry's recognized leader in customer care, our account managers and technical support are available to support everyone across the organization— where they need it, when they need it most.

Convenience
