

PURPOSE. INSPIRED RESULTS.

Beyond the Cost Report: Turning Compliance into Strategic Insight

Our Medicare and Medicaid cost reporting service doesn't stop at compliance—It unlocks real operational value through expert analyses and decision-ready insights.

Cost reporting is more than a regulatory requirement. At Squared Business Solutions, we deliver all-in one Medicare and Medicaid cost report preparation plus detailed management reporting that gives executives and operators a real view into financial, operational, and clinical performance.

End-to-End Report Preparation

We gather and compile all required cost reporting documentation—on-site or remotely—to save your team time and ensure accurate, timely Medicaid and Medicare submissions.

Operational Dashboards & Financial Summaries

Our deliverables go beyond the cost report itself. We provide clear dashboards and summaries for executive and facility leadership to review financial drivers and efficiency.

“Clients tell us the post-report insight is just as valuable as the report itself.”
