

Positioning Your Business to *Thrive*

Two Tree provides on-site consulting to hospitality teams to elevate food and service through smarter operations and tailored support.

After years of working inside large organizations, we saw a common challenge: non-clinical departments were expected to improve without the support or capacity to do it alone.

Two Tree was built to help. We provide hands-on consulting and interim leadership that helps organizations strengthen operations, build better systems, and deliver more consistent service.

Our role is to support your team, not replace it.

"Two Tree has been an amazing partner, taking my vision and ensuring it translates effectively in the culinary world. As the chefs gain confidence, we now have talent that can really help us continue to elevate."

MICHAEL ZYWICKI

Bespoke Solutions for Your Industry

We help senior living communities strengthen support services and enhance the guest experience. By focusing on the operational departments that drive daily performance, we deliver tailored solutions aligned with the unique needs of each industry we serve.

Operational Assessments & Stabilization

We help you turn insight into action: renegotiations, vendor consolidation, GPO evaluation, and RFP management, all aimed at reducing costs and improving outcomes without adding operational strain.

Training & Development

Two Tree partners with Pineapple Academy to build practical training programs for frontline teams and service leads. Development is tied to roles, expectations, and the real work of delivering consistent service.

Process & Workflow Optimization

From staffing models to facilities management, Two Tree helps departments run more efficiently and consistently. Support includes production process design, task flow alignment, and real-time operational fixes.

Department Leadership & Interim Support

When internal leadership is stretched or unavailable, Two Tree steps in with experienced guidance. Fractional support brings stability while helping teams stay focused and on track.

Service Design & Quality Assurance

Clear service standards and simple evaluation tools help departments stay accountable. Two Tree supports QA efforts that align operations with brand and experience expectations.

Vendor & Program Transitions

Changing partners or launching a new program requires careful execution. Two Tree supports the transition process and ongoing management to ensure continuity, minimize disruption, and protect service quality.
