

## Limited-Time Promotion for Life Plan Communities

### Complimentary Engineering & Infrastructure Consultation

(\$5,000 Value – Free Through June 30, 2026)

**Plan smarter. Build confidence. Reduce risk.**

For a limited time, Life Plan Communities and senior living campuses can take advantage of a **complimentary engineering consultation** designed to support long-range planning, capital strategy, and infrastructure decision-making.

### What's Included in the Free Consultation

This no-cost engagement provides a structured, executive-level assessment of your community's current and future needs:

#### ✓ Onsite Survey

- Physical walk-through of campus infrastructure
- Review of utilities, systems, and site conditions
- Identification of observed risks, constraints, and opportunities

#### ✓ Engineering Review

- High-level evaluation by experienced engineering professionals
- Alignment with Life Plan Community operational and growth goals
- Consideration of phasing, constructability, and future expansion

#### ✓ Technical Documentation & Deliverables

- Written summary of findings and observations
- Engineering-based recommendations for next steps
- Documentation suitable for leadership teams, boards, and planning discussions

**Total Value: \$5,000 – Offered at No Cost**

This promotion is designed to help senior living organizations:

- Prepare for capital improvements or campus redevelopment
- Support master planning and feasibility efforts
- Reduce uncertainty before engaging in full design or construction
- Gain objective, professional insight without upfront commitment

## Who Should Participate

- Life Plan / Continuing Care Retirement Communities (CCRCs)
- Senior living operators planning campus upgrades or expansion
- Organizations preparing for future regulatory, capacity, or infrastructure needs

## Promotion Details

- **Offer Value:** \$5,000
- **Cost to Participant:** Free
- **Availability:** Limited-time promotion
- **Expiration Date:** June 30, 2026
- **Scheduling:** Subject to availability

## Call to Action

**Reserve your complimentary consultation today** and gain clarity on your community's infrastructure and engineering needs—before critical decisions are made.
